

**DO NOT EAT ANY SOLID FOOD AFTER
12 O’CLOCK MIDNIGHT THE NIGHT
BEFORE YOUR SURGERY.** Infants or children

may have a moderate amount (12oz.) of any clear liquid up to 3 hours prior to the time of surgery. Clear liquids include water, apple juice, cranberry juice, carbonated beverages, or tea without milk or creamer. Infants may have a moderate amount (12oz.) of infant formula, breast milk, or milk products up to 6 hours prior to the time of surgery.

{_} Schedule your pre-operative physical within two weeks of your child’s surgery. This is done at your pediatrician’s office.

{_} Make sure the physical has been faxed to the Lancaster General Health Campus (717-544-3182) and Parkside Dentistry. (717-367-9664)

{_} Dental co-payment is made at least one week prior to your child’s scheduled surgery to Parkside Dentistry. (If needed)
