

**Effective January 19, 2011**

**Update to Parkside Dentistry P.C. Sedation Policy**

It is the Parents Responsibility to confirm Sedation Appointments with Parkside Dentistry, P.C.

Examples are as follows:

- Update your insurance information if it would change or become inactive from the time you schedule the appointment to the actual appointment time.
- Update your telephone number and or address if it would change.
- Confirming with our office 1 week prior to your child's appointment.

**Warning: There is a possibility that your appointment will be cancelled if we do not maintain contact and confirm your appointment.**

**Important Points:**

- Parkside Dentistry treats sedation appointments as if they are surgery, there are pre-operative directions that we need to make sure that the parent completely understands.
- Good Communication will lead to Good Outcomes!!
- Parkside Dentistry also needs to make sure that all of the right insurance information is up to date so we can have a better estimate of patients out of pocket responsibility before the appointment.

**Thank you for the understanding and your cooperation.**
